

# The richest 1% of the UK population are as rich as the poorest 55% combined

## RICHEST 1%

## POOREST 55%

**What does this mean?**

The richest one per cent of households hold about 12 per cent of all household wealth in the UK. That's the same as the poorest 55% of all households.

### Explaining the data

This data is from the Office for National Statistics 'Wealth in Great Britain, Wave Three' report covering the years 2010-12 (the most recent period for which data is available). The report can be found online at <http://www.ons.gov.uk/ons/rel/was/wealth-in-great-britain-wave-3/2010-2012/index.html>
