

It takes a FTSE 100 CEO three days to make what an average worker earns in a year

CEO EARNS
£27,000 IN
THREE DAYS

AVERAGE WORKER
EARNS £27,000 IN
ONE YEAR

What does this mean?
The average FTSE 100 CEO earns the average worker's annual salary of £27,000 in just three days.

Explaining the data

CEO pay of £4.25 million is taken from the Manifest survey of CEO pay, while workers' pay of £27,000 is taken from the Office of National Statistics Annual Survey of Hours and Earnings; we have (generously) assumed that CEOs take just 10 days annual leave and work an average 12 hours a day, 6 days a week.
